### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David D'Ascenzo on July 21, 2004.

2. The application has been amended as follows:

IN THE CLAIMS:

**Claim 69.** In line 11, **before** "garment", **delete** "dry"

**Claim 95.** In line 2, **before** "garment", **delete** "dry"

3. The following is an examiner's statement of reasons for allowance:

Smith et al, U.S. Patent No. 5,658,651, discloses a fabric treatment composition for treating wet fabric articles comprising 2.5-25% by weight of a fabric softening agent (see col. 4, lines 48-59), 2-5% by weight of a surfactant system, including both anionic and nonionic surfactants (see col. 7, line 17-col. 8, line 36), 10-20% by weight of a dispersing agent (see col. 8, line 37-col. 9, line 23), 2-75% by weight of an organic solvent, such as a glycol or an isoparaffin (see col. 9, lines 24-60), a minor amount of a

perfume (see col. 10, lines 5-14), and 15-25% by weight of water (see col. 9, lines 61-66). It is further taught by Smith et al that the fabric treatment composition is contained in an absorbent sheet (see col. 2, lines 24-45 and col. 10, lines 15-34), and that the clothes are cleaned with the absorbent sheet containing the composition in a heat resistant bag that contains venting holes in a home dryer (see col. 2, line 24-col. 3, line 16 and col. 12, lines 27-65). However, patentee differs from applicant in that Smith et al requires that the composition is used to treat wet fabrics (see col. 2, lines 24-27), whereas the instant claims are limited to compositions that are used to clean and treat fabrics that are dried. Therefore, the examiner makes of record that the terms "dry cleaning article" and "dry cleaning composition" in the instant claims are construed to mean articles and compositions for treating only dry fabrics (i.e. not wet or moist).

Accordingly, the claims viewed as a whole would not have been obvious to one of ordinary skill in the art at the time of the invention after viewing the prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
